## Network Reset from Reach Central

### Before you begin, let the customer know

- This **resets all mobile devices** on the account
- This also **resets all of the customer's saved Wi-Fi networks and passwords on their mobile devices**
- Get a **good contact number** and give the customer **full instructions**
- If they are speaking/chatting with us on the **affected mobile device**, the **connection will be lost / disconnected**

### Go to Reach Central

1. From the **customer's account page**, search for the **Quick actions** section (bottom)
2. Press **Network reset**
3. Press **Confirm** on the **Confirmation** screen pop up
4. A message screen pops up to tell you the **Network reset request is received**
5. Close the message screen to go back to the **customer's account**
